DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mark Wilson on 9/12/2007.

The application has been amended as follows:

Cancel claim 12.

Allowable Subject Matter

2. Claims 1, 2, 4-11, and 13 are allowed.
3. The following is an examiner's statement of reasons for allowance: Claims 1, 2, 4-11 and 13 are allowable since certain key features of the claimed invention are not taught or fairly suggested by the prior art. In claim 1, "said first surface deforms sufficiently when a predetermined pressure is applied thereto to cause a portion of said light signal to be reflected toward said second surface at an angle greater than the critical angle in said optically transparent layer such that the reflected light escapes the optically transparent layer at the second surface". In claim 13, "said imaging system generates a difference image comprising the difference of first and second images, said first image being formed when said light signal is absent from said optically transparent layer and said second image being generated when said light signal is present in said optically transparent layer". The closest prior art of record however singularly or in combination fails to anticipate or render the above underlined limitations obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ricardo L. Osorio whose telephone number is 571-272-7676.
